

# SAAKETH CHAGANTI

PROGRAMMER

## PROFILE INFO

Hey I'm Saaketh, I enjoy coding and the idea of giving instructions to a machine. I'm passionate about machine learning and AI. About my work, I'm very less likely to lose interest midway, once I start working on it. I taught myself Full stack and AI. One of my favorite things in CS apart from AI is competitive coding. I see them like brain puzzles and obsessed with solving them.

## EDUCATION

MAHINDRA UNIVERSITY 2017 - 2021

Bachelors Degree, Mechanical Engineering, Hyderabad

GPA - 6.2(5/8 sem)

ALTITUDE CLASSES 2015 - 2017

SSC, Hyderabad

IPE-75%, JEE-103(Q)

Delhi Public School 2015

CBSE, Hyderabad

GPA - 7.2

## SKILLS

Python

Node JS

TensorFlow

Algorithms

React JS

Data Mining

## WORK EXPERIENCE

AI Developer Aug - Sept 2020

UrbanKisaan, Hyd

Developed an android app to recognize ripe tomatoes in a plant, further noting the fruit's location in the farm in x,y coordinates. I later integrated this onto a drone to carry the mobile and fly around the farm recognizing tomatoes ready for harvest.

Backend Developer July - Aug 2020

Mrida Group, Hyd

Built a dynamic data registry website for field agents across rural India. Features include authentication hierarchy, data entry with custom schemas.

AI Analyst June - July 2020

UrbanKisaan, Hyd

Performed crop sales prediction using the ARIMA model along with analysis on sales for a bigger company to co-relate their sales with UrbanKisaan.

Software Intern May - June 2020

Focus Softnet, Hyd

We had to decrypt C struct files coming in real-time live from a server and feed its data to a dashboard we had created and later deployed for professional use.

Software Intern May - June 2019

Graylogic Technologies, Hyd

Lead the project of Caper with a team of 5. This App is made for sports enthusiasts to help find a partner using GPS in a particular sport, matching their skill level. I developed the Frontend of the App.

## PROJECTS

### ELYWALLS

Built a full fledged E-Commerce Website for artists and photographers to sell their work. Established as a start up, live at elywalls.com.

### TODS

A neat looking customizable To-do app to manage daily tasks and prioritize them, live at todsnow.me.
